
How can I help?

1. **By giving us a donation.**
We gratefully welcome any amount—it all adds up. We can make money go a very long way in Romania, and if you are a tax payer we can claim an extra 25p on every £1. Please ask us for a gift aid declaration form.
2. **By donating your old clothes, unwanted ornaments, books, CDs, DVDs and bric-a-brac.** Our charity shop in Rotherham market is a great help to us in raising funds. Donated items may be left there or at any of the Hamby shops. We would also love to welcome you as a volunteer!
3. **We have no paid staff and no large overheads or costs, so every penny we raise goes directly to aid projects.** Over the past 20 years, we have raised and donated over a million pounds.

had old shoes—
then met a child
who had no feet”**

....“You can stand and curse the darkness, or you can light a candle”...

The Hamby Foundation charity was UK registered in 2004 but our work in Romania dates from 1999 when Chris Hamby visited Romania and saw the poverty in Constanta on the Black Sea coast. Since then, a group of friends have raised funds for various aid projects. Many people have generously supported the work by giving donations and items to sell. Money and practical aid has gone to help street children's charities, old peoples centres, an Aids hospice and to poor families in need. The Foundation has helped to buy a building, Casa Meryl in Baltageste to use as a feeding centre and Church. We have also sent out clothing, footwear and other items directly by lorry. Over the years we have paid for life-saving operations, provided wheelchairs and given many much needed grants to families, old people and charitable organizations.

Existing projects and future aims

We will continue to support PRR, Project Romanian Rescue, a Street Children's centre in Constanta. They provide food, clothing, education and safe and secure housing for children abandoned and rescued from the streets. Or who have been taken into care to save them from dangerous situations. We have seen children taken from poverty, hunger and danger to become model citizens who now have their own homes, families and jobs.

We will continue to aid medical operations and help in severe individual hardship cases.

Wherever possible, we aim to support the local economy and its workers.

It is now over 30 years since the revolution, so why does Romania still need our help?

After 40 years of extreme communism, all the social services had to be started from scratch. This is a long job.

Most of the population is 8 times poorer than 20 years ago.

6.5 million Romanians live in extreme poverty with over 1.2 million unable to afford food.

1 in 5 children are forced to work in order for their families to survive. They are withdrawn from school and are therefore illiterate.

Many homes, 95% in rural areas have no running water and many cannot afford electricity. These factors along with a poor diet and poor healthcare lead to the third highest infant mortality rate in Europe, (18 deaths per 1000 live births) and a resurgence of tuberculosis. TB is a growing killer with 30000 cases a year, the highest in Europe, the next highest being Albania with 600 cases. The chief victims are young adult men who are the breadwinners so leading to more problems.

Romania still has over 6000 street children .

Home care for the elderly, meals on wheels, and home nursing simply don't exist in Romania. The only help for old people comes from aid.

Statistics. WHO and UNICEF reports
